

FOI173 Response

Request

Can you please provide average length of stay for the different ward levels you have in your Trust for 2019

- Medium secure
- Low secure
- PICU
- Locked rehab
- Open rehab

Can you please also provide average length of stay and average HONOS score at admission and discharge for the following specialities for 2019

- General adult mental health
- Rehabilitation and Recovery
- Personality disorder
- Eating disorder
- CAMHS

Clarification from Requester:

Trust to provide mean average length of stay at discharge.

If possible, Trust to provide length of ward stay and length of whole inpatient spell.

Trust to provide data for adult acute, older adult acute, and any longer-term care/rehabilitation of MH patients.

Trust to provide HONOs data as close to admission and discharge, providing the averages for the first and last HONOS scores during intake.

Response

Please see the attached spreadsheet and note that a breakdown of each Trust ward is also provided in line with the list of service categories.
