

## **FOI 0109/2021 Response**

### **Request**

Please can you send the total number of deaths as requested in questions 1 and 2?

\*please note that this request is in relation to FOI412 which requested the following data:

- How many deaths among patients with learning disabilities the trust has recorded in the following years - 2016/17, 2017/18, 2018/19, 2019/20, 2020/21.

- Please can you tell me how many of these deaths among patients with learning disabilities were categorised as Serious Incidents. Please provide the total number for each year.

If possible, please provide the outcome of each of these Serious Incidents.

## Response

Please see table below and note the following:

- The data provided shows the number of deaths for patients who have been classed with a learning disability between the financial years of 2016-17 – 2020-21.
- A learning disability has been determined using the International Classification of Diseases (ICD10) codes from the International Classification of Diseases (ICD).
- The data provided shows the number of deaths that were classed as a serious incident with the corresponding outcome type.
- The Trust's primary service is the provision of mental health care services. Therefore, please note that the patients identified in the table below are those that have a mental health need as a primary diagnosis and a learning disability as a secondary, supporting diagnosis.

Financial Year	Untoward Incident Deaths of patients with a mental health diagnosis and a secondary diagnosis of learning disability	Number of Serious Incident Deaths of patients with a learning disability	Total Number of Incidents	Outcome of Serious Incident Deaths of patients with a learning disability
2016-17	1	1	2	Drug/alcohol related death
2017-18	3	0	3	N/A
2018-19	1	0	1	N/A
2019-20	1	0	1	N/A
2020-21	2	0	2	N/A
