

FOI 0137/2021 Request

I would like to know the number of patients placed in each year that are out of area (already part of the template).

For this request I am looking to compare the revenue received across NHS trusts for out-of-area patients received from CCGs.

Can you please provide both the number of out-of-area (OOA) inpatients and the average revenue per day (or week if daily information is not available) for the following areas:

- § Neurorehabilitation (ABI Level 3)
- § Psychiatric Intensive Care Unit (PICU)
- § General adult mental health
- § Rehabilitation and Recovery
- § Neuropsychiatry
- § Autism Spectrum Disorder (ASD) speciality units
- § General Learning Disability
- § Complex Learning Disability (additional diagnosis such as autism)
- § General Learning disability – care home services
- § Complex Learning Disability (additional diagnosis such as autism) – care home services

I would like the information provided for financial years 2018-19, 2019-20 and 2020-21.

Response

Please see spreadsheet and note the following:

- Data provided is in relation to OOA placements within Trust beds.
- Data could not be provided for the financial year 2020/2021, this is because due to Covid-19 guidelines the Trust was restricted from invoicing for OOA.
- The Trust do not have services that are specifically in relation to Learning Disabilities, Neurorehabilitation (ABI Level 3) or Autism Spectrum Disorder.
