

FOI 0406/2023 Response

Please provide your answer in the above format for each system.

System definitions:

Adult (working age) services: This may be an independent system for managing these patients, or it may be part of the trust's EPR functionality.

BI & Data Warehousing: Integrates data and information collected from various sources, e.g. electronic patient/health records, enterprise resource planning systems, radiology and lab databases, wearables etc, into one comprehensive database

Child and Adolescent Mental Health Services (CAMHS): is a broad term for all services that work with children and young people who have difficulties with their emotional or behavioural wellbeing.

Eating disorders: This may be an independent system for managing these patients, or it may be part of the trust's EPR functionality.

ePOA: A digital platform/app that streamlines the pre-operative assessment process, replacing traditionally paper-based tasks with electronic data collection for efficiency. It allows patients to provide essential information online before their hospital visit and engage in a structured assessment, often with a nurse, to ensure a smooth and efficient preparation for surgery. Some suppliers include, AireLogic, Definition Health, OpenMedical.

Electronic Care Programme Approach (eCPA): The system is designed to improve the quality of information in CPA care plans and, for the first time, to enable the rapid and standardised adoption of evidence-based good practice.

E-rostering: An electronic staff management tool that enables trusts to plan staffing requirements, report on enhanced hours, overtime, sickness, TOIL and annual leave.

Learning disabilities: This may be an independent system for managing these patients, or it may be part of the trust's EPR functionality.

Main Community System: A main community system is a software system that supports the delivery of community health services by enabling electronic patient records (EPR) and case management. Civica Paris and Servelec Rio are examples of main community systems. They help to improve patient outcomes by providing a single view of patient information, supporting multi-disciplinary team working, integrated health and social care services, and online and offline mobile working.

Older Adults: This may be an independent system for managing these patients, or it may be part of the trust's EPR functionality.

Statutory reporting: Simple BI producing Statutory Returns which need to be made to Central Government – e.g. PBR, MHMDS, CDS, HES, NDTMS – as appropriate to commissioned clinical services. Typically, these are contained within the ROCR (Register of Central returns) and have been through an approved “gateway” process

Please provide information regarding the following systems:

1. Adult (working age) services:

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

N/A for the above questions, the Trust do not have a system to manage and collect data explicitly for adult patients. Rather this is part of the Trust's Rio system (Electronic Patient Record System).

Below are the details for Rio.

System type

Electronic Patient Record/Patient Administration System

Supplier name

The Access Group

System name

Rio

Date installed

March 2015

Contract expiration

May 2024

Is this contract annually renewed?

No

Do you currently have plans to replace this system?

No

Procurement framework

SBS Framework

Other systems it integrates with?

No

Total value of contract (£)

£1,076,630.00.

2. BI & Data Warehousing

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

Yes – in house developments using Microsoft SQL Server and Power BI – full BI stack

Supplier name

n/a

System name

n/a

Date installed

In use and developed over 10-15 years

Contract expiration

There is no contract

Is this contract annually renewed? - Yes/No

There is no contract

Do you currently have plans to replace this system? - Yes/No

No

Procurement framework

N/A

Other systems it integrates with?

Not exactly integration, but is populated automatically with data primarily from Rio, IAPTus, SystemOne and ESR

Total value of contract (£)

£0

3. Child and Adolescent Mental Health Services (CAMHS)

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type

Supplier name

System name

Date installed

Contract expiration

Is this contract annually renewed? - Yes/No
Do you currently have plans to replace this system? - Yes/No
Procurement framework
Other systems it integrates with?
Total value of contract (£)

N/A for the above questions, the Trust do not have a system to manage and collect data explicitly for children and young people. Rather this is part of the Trust's Rio system (Electronic Patient Record System). Please see details for Rio in question 1.

4. Eating disorders:

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type
Supplier name
System name
Date installed
Contract expiration
Is this contract annually renewed? - Yes/No
Do you currently have plans to replace this system? - Yes/No
Procurement framework
Other systems it integrates with?
Total value of contract (£)

N/A for the above questions, the Trust do not have a system to manage and collect data explicitly for Eating Disorder Service. Rather this is part of the Trust's Rio system (Electronic Patient Record System). Please see details for Rio in question 1.

5. ePOA:

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type
Supplier name
System name
Date installed
Contract expiration
Is this contract annually renewed? - Yes/No
Do you currently have plans to replace this system? - Yes/No
Procurement framework
Other systems it integrates with?
Total value of contract (£)

N/A – BSMHFT explicitly provide mental health services and do not provide physical health care like an Acute Trust.

6. E- rostering

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type

E-rostering

Supplier name

RLDatix Allocate Software

System name

HealthRoster

Date installed

February 2015

Contract expiration

December 2024

Is this contract annually renewed?

No

Do you currently have plans to replace this system?

No

Procurement framework

HET Framework

Other systems it integrates with

ESR

Total value of contract (£)

£166,545.67

7. Learning Disabilities:

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type

Supplier name

System name

Date installed

Contract expiration

Is this contract annually renewed? - Yes/No

Do you currently have plans to replace this system? - Yes/No

Procurement framework

Other systems it integrates with?

Total value of contract (£)

N/A for the above questions, the Trust do not have a Learning Disability Service. System).

8. Older Adults

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type

Supplier name

System name

Date installed

Contract expiration

Is this contract annually renewed? - Yes/No

Do you currently have plans to replace this system? - Yes/No

Procurement framework

Other systems it integrates with?

Total value of contract (£)

N/A for the above questions, the Trust do not have a system to manage and collect data explicitly for older people. Rather this is part of the Trust's Rio system (Electronic Patient Record System). Please see details for Rio in question 1.

9. Statutory reporting:

Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

System type

Supplier name

System name

Date installed

Contract expiration

Is this contract annually renewed? - Yes/No

Do you currently have plans to replace this system? - Yes/No
