FOI 0479/2024 Response

1. **Patient Administration System (*used to support patient management, including tracking patients and managing admissions, ward attendances and appointments*)**
   a. Does the organisation use a Patient Administration System (PAS)? If yes, please provide the supplier's name.
   b. What is the contract end date of the PAS supplier?

   The Trust used RIO provided by the Access Group and the contract end date is May 2024.

   2. Electronic Health Record System *(a digital record of patient health information)*
   a.Does the organisations use an Electronic Health Record (EHR)? If yes, please provide the supplier's name.
   b. What is the contract end date of the EHR supplier?

   The Trust used RIO provided by the Access Group and the contract end date is May 2024.

   3. Patient Engagement (patient engagement tools refer to systems that enable patients to access personal health information and allows patients to choose to participate in their care)
   a. Does the organisation use a patient engagement tool? If yes, please provide the supplier's name.
   b. What is the contract end date of the Patient Engagement supplier?

   BSMHFT does not currently have a patient portal / Patient Engagement system.

   However, a project is underway to implement such a system using existing technology and therefore there will not be a procurement.

   4. Task Management Functionality
   Please tick below which task management functionality currently used at the organisation.*Clarification Task management functionality refers to any system in place that effectively tracks and manages tasks throughout projects.**

Functionality	Tick if used
Static Task Lists	
Automated Escalation and Allocation of Tasks	

   The Trust do not have a Task management functionality system.
