

FOI025 2024 Response

Request

I am trying to understand the level of clinical trials activity that is taking place in the UK. Specifically, can you tell me how many commercial clinical trials have been taking place in this health board during the calendar year of 2023?

This could be completed trials, or trials that are ongoing. When I say “commercial trials” I mean trials that are funded or sponsored by a commercial company such as a pharmaceutical company.

Response

The Trust can confirm that there have been Two (2) commercial studies that were running (and continue to) in 2023.

One (1) on epilepsy (STARS), and one (1) on Huntington’s disease (DIMENSION/SAGE).
