- **Hospital Name**
- **Hospital Postcode**
- **General ward monitoring OEM**
- **Model**
- **Installation date**
- **How many beds in your general ward**
- **Is your general ward monitor connected to an EPR**
- **Who is your EPR supplier**

System Definitions:

- EPR – An electronic patient/health record is a digital version of a patient's paper chart.
- OEM – original equipment manufacturer e.g. Philips

Response

Please note that Birmingham and Solihull Mental Health Foundation Trust explicitly provide mental health services and do not provide physical healthcare like an Acute Trust.

Your request for information is therefore not applicable to the Trust.

However, we can confirm that the Trust uses Rio provided by The Access Group, as our main EPR system.
